5) Notice of Informal Patent Application

6) Other: \_\_\_\_\_.

This application is in condition for allowance except for the following formal matters:

**In the Specification:**

The disclosure is objected to because of the following informalities: In the replacement paragraph to page 1, line 11, last line therein, note that --therein-- should be inserted after ‘Fig. 7’ for clarity of description. Page 7, line 12, it is noted that --OF THE PREFERRED EMBODIMENTS-- should be inserted after “DETAIL DESCRIPTION” for an appropriate characterization. In the replacement paragraph to page 8, line 16, first line therein, note that “first 4, second 5, third 6 and fourth 7 conductive layer” should be rephrased as --first conductive layer 4, second conductive layer 5, third conductive layer 6 and fourth conductive layer 7-- for clarity of description. Page 9, lines 10, 11, note that --first ground plane 10, second ground plane 11 and third ground plane 12-- is suggested for clarity of description. In the replacement paragraph to page 9, line 19, third line therein; note that --line-- should be inserted between “first” & “8” for an appropriate characterization; moreover, note that it remains unclear whether the recitation of this paragraph properly characterizes the orientation of the respective ground planes (i.e. as evident from Fig. 3, the tuning ground plane (11) appears to be parallel to the other ground planes (e.g. 10), rather than being perpendicular thereto). Clarification is needed. In the replacement paragraph to page 11, line 5, first line therein, should the recitation “of the invention” be deleted as to be commensurate with like changes made through out the specification?; 8<sup>th</sup> line therein, note that a --,- should be inserted after “5” for grammatical correctness. Applicants’ are reminded that all reference labels appearing (i.e. preferably in the description of the drawing figure objected to) in the drawing figures need to be correspondingly described in the specification. Appropriate correction is required.

**In the Drawings:**

The drawings are objected to because in Fig. 3 (and not Fig. 9), note that for the “via” on the right hand side, the reference label “9” should correctly be --19--.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

**In the Claims:**

In claim 1, line 5; claims 2, line 2; claim 3, line 3; claim 8, lines 2, 5; claim 9, line 1; claim 10, line 2: note that --line-- has been inserted after “first” for an appropriate characterization.

In claim 12, line 1, note that “a wherein” should be correctly rewritten as --where in a-- for an appropriate characterization.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claims 1-5; 6, 8-10, 12 are allowable over the prior art of record.
